CREATIVE COMPOSITION: IT'S NOT WHAT YOU PHOTOGRAPH, IT'S HOW YOU PHOTOGRAPH!

A photo subject can be the same, yet captured in so many different ways. What makes one photograph stand out above the others? It's simple, a great composition. Understanding how our vision responds to an image is the first step in achieving success. From the basics of color and form to the use of more advanced techniques, we will explore and discuss different artistic approaches used to create better photos and help you become a better photographer. Creativity spreads... come and catch it!

Jennifer King will be our presenter.

Jennifer King is an internationally acclaimed landscape and fine art photographer with a passion for teaching and inspiring photographers around the world. She draws on her fine art and design background to bring an artistic approach to nature photography. Jennifer is honored to be a Moab by Legion Master Photographer, Singh-Ray Filters Ambassador and one of the premier black and white photographers in the country. She is recognized as 1 of 15 Amazing Women to Follow by 500px and is the Founder of PHOTOGRAPHY for the FIGHT AGAINST BREAST CANCER (pfabc.org), an industry-wide organization bringing together the biggest names in photography to raise money for breast cancer research. You can find her photography, tutorials and interviews in Outdoor Photographer Magazine, Outdoor Photography Guide, Camera in the Wild, Photography Talk, VIA Magazine, Smoky Mountains Journal of Photography, and Wild Planet and more!

Member Photo Spotlight

Peer Mentor Program

The August 2022 Theme Challenge was Negative Space.

Negative Space can be a significant challenge for photographers since there are "loose-goosey" guidelines or rules for this theme. For example: Should negative space avoid drawing the attention of the viewer? Should the positive space convey emotion? Is the size and location of the positive space critical? Should the negative space be in focus or blur avoid attention?

There were 10 Negative Space submissions by the eleven peer mentors who attended the Zoom meeting. Most of the submissions received at least one vote, and all photos were critiqued by their fellow peer mentors.

The 3rd place Negative Space photo was a wheat field with a tractor in the upper right corner. The photo was taken on a dry-farm in Teton County Idaho.

The 2nd place Negative Space photo was a close-up night view of the moon above the Tetons. The mountains were black, but the evening sky was still slightly lit-up from orange to a dark blue sky.

The 1st place Negative Space photo was a black-and-white photo of a white swan reaching back in a slightly wavy black pond. The positive space white swan is set-up by the gentle waves and the negative space dark water.

Sue Lurie has chosen Texture/Pattern as the Challenge Theme for September. You can find some suggestions and encouragement to take photos for our next Zoom meeting on **September 27th AT 6:30** by [checking out these articles](#).

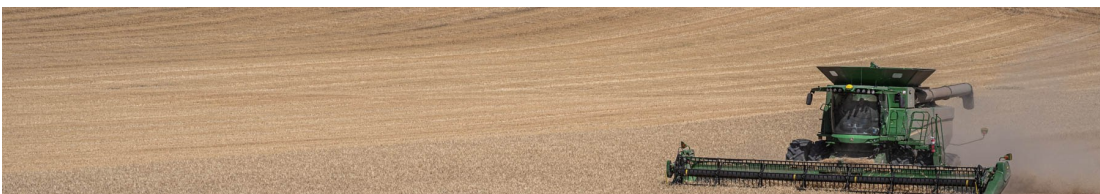

1st Place Sue Lurie

2nd Place Ben Nardi

3rd Place Randy Isaacson

Would you like to see your picture featured? We'd love to include your image in the monthly newsletter. Every month I'll select a photo submitted by one of our awesome members. Submit your photo, email me at news@tetonphotographyclub.org. Include the photo, your name, shooting data, and a few sentences about your image.

From the President

Members,

As I mentioned last month, the Teton County Library has graciously selected us as one of the organizations to host meetings in their facility. This will be a great venue for the club and will allow us to host in-person meetings as well as simultaneously using Zoom.

Using their facility will mean that our meetings will be on the 3rd Tuesday of each month beginning in September. We are also moving the start time up to **6:30pm**.

You will need to enter the library via the front door. The library closes at 7pm so don't be late!

Happy shooting!

David Navratil
